

MEDIA BACKGROUNDER

[Cor_so](#) is an award-winning practice specialising in interior design and architectural solutions for commercial and domestic clients in Australia. The practice is driven by a team of dynamic, innovative thinkers who prioritise quality design, budget adherence, and punctual project completion.

[Cor_so](#) is passionate about architecture and the interior environment, with Founder Joey Corso dedicated to creating spaces that excel in both form and function.

The team at [Cor_so](#) view each project as a unique, intricate puzzle with its own narrative. They strive to enhance and create spaces that effectively convey an idea without resorting to obvious solutions.

Efficiency and clear thinking form the cornerstone of the [Cor_so](#) approach, resolving challenges through design and great relationships with both clients, builders and industry peers to produce positive outcomes.

[Cor_so](#) employs a consistent method across all projects, emphasising the importance of understanding the brief, valuing collaboration, and providing design leadership.

The [Cor_so](#) approach is to listen to clients and work closely to

ensure that their visions are brought to life.

Above all, the team at [Cor_so](#) is driven by a love for what they do, with enthusiasm for architecture and interior design evident in all spaces they create and the successful projects they deliver.

About the Founder, Joey Corso

After completing a Bachelor of Design (Interior & Exhibition Design) from Swinburne University, Joey Corso gravitated towards commercial and residential developments harnessing a broad range of experience and expertise in multidisciplinary sectors.

Joey founded [Cor_so](#) in 2012 to deliver an intimate and hands on approach to projects. Today, [Cor_so](#) has grown into an award-winning team of interior designers who deliver retail, corporate and residential projects.

From concept to completion Joey is passionate about working side by side with clients to develop design strategy, feasibility, space planning, concept design, construction documentation and project management.
